

TRIMBLE GROUNDWORKS

MACHINE CONTROL SYSTEM FOR DRILLING AND PILING

Trimble Groundworks can enhance worksite safety, accuracy and the efficiency of your drilling and piling operations. All day, every day, in any weather.

Realize maximum production and revenue with the Trimble® Groundworks Machine Control System—an aftermarket, land-based, 3D drilling and piling system for the mixed fleet operator.

- Stakeless drilling or piling and minimal lay out reduces workload and cost
- Keep personnel safe by reducing the need to be near machines and warns the operator when entering avoidance zones
- Limit operator fatigue by reducing paperwork

Trimble Groundworks pays for itself by:

- Using RTK for extreme precision and accuracy
- Piling and drilling exactly to defined elevation using Auto Stop
- Navigating to battered or vertical piles or holes from any direction
- Reducing time and money spent on surveyors and stakes
- Logging as-built data during operation
- Reducing rework
- Reducing site visits by syncing data via Wi-Fi or cellular direct to the office

OPTIMIZE DRILLING AND PILING

PRODUCTION AND REVENUE

TRIMBLE VERSO 12 DISPLAY

Keep your machines working. Not waiting.

Your machines can be up and running 24/7 with the rugged and fully connected Trimble VERSO 12 and Trimble Groundworks Software. The easy-to-read touch screen makes navigation simple and quick.

- Rugged VERSO 12 display
- Clearly see avoidance zones for safer worksites
- Configurable views
- Easy to use, intuitive interface
- Modern colorful graphics

Part of the Trimble Connected Site® portfolio, Trimble Groundworks is an integrated solution that brings the office and the field together to give you less rework, more productivity, and best of all — more profitability.

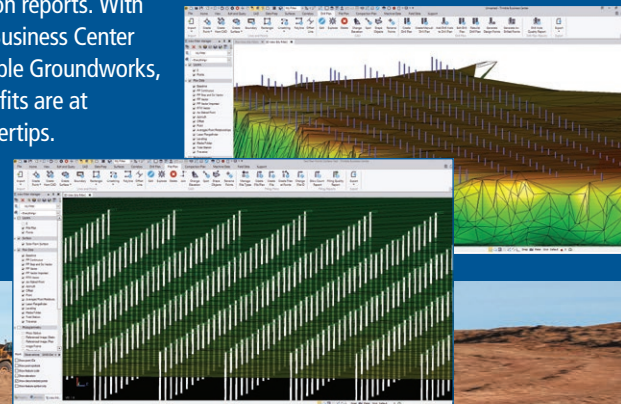

- Trimble Business Center creates and manages design data to avoid costly mistakes
- Connected Community allows design data to be shared in the cloud and ensures operators are always working with the most recent information
- Trimble Groundworks gathers as built data so Trimble Business Center can run accurate quality, production, and utilization reports

TRIMBLE BUSINESS CENTER

Optimized drill plans. Optimal results.

Rapidly create optimized 3D drill or pile plans with Trimble Business Center, then generate comprehensive quality and production reports. With Trimble Business Center and Trimble Groundworks, more profits are at your fingertips.
